Mountain Dew was originally meant to be a whiskey chaser. It was birthed into reality by two brothers, Barney and Ally Hartman, who were looking for a "great" whiskey mixer. They couldn't find the proper chaser that made whiskey taste good to them, so they took it upon themselves to invent one. In 1940, Mountain Dew hit the market. The original slogan for Mountain Dew was "Yahoo Mountain Dew, It'll tickle your innards."
